Incorporated City 1887

A City For Progress

August 8, 2017

An issue was discovered with an electric multiplier for the Jasper County Courthouse. The multiplier for this account was changed from a times 80 to a times 40 multiplier, 10 months ago. This change was inadvertently not entered into the billing program. This was discovered when a new electric meter was installed. Over a 10 month period, 55,200 kwhs (\$5668.07) was billed inaccurately. This amount will be credited to account #14-1201-00. The multiplier has been corrected. Bills for the courthouse due in July and August are correct.
